More Tips Needed in Investigation of Fatal Accident *Detectives Request Public's Help*

Milwaukee, WI – One week ago, a Milwaukee-area doctor was killed after a truck's wheel came off and struck the doctor's vehicle on northbound I-43 near Silver Spring Drive at 6:43p.m. 55-year-old Dr. Krishna Chintamaneni died at the scene. Milwaukee County Sheriff's Office detectives now believe that there may have been problems with the truck's tire as it traveled from Outagamie County into Milwaukee County. The truck is a grey freightliner with Holmes Trucking on the side.

On the day of the crash, detectives believe that the Holmes truck left the Hattiesburg Paper Company in Green Bay and took the following route into Milwaukee County: The truck left Brown County and traveled southbound on U.S. Hwy 41 at approximately 7:30a.m. It took U.S. Hwy 23 into Sheboygan County and then took southbound I-43 into Milwaukee County. Detectives believe the truck entered Milwaukee County about 6:30 p.m.

Detectives want to hear from citizens who observed this truck and noticed anything unusual. Citizens are urged to call Milwaukee County Sheriff's detectives at (414) 278-4788. Citizens may also email tips to sheriff@milwcnty.com

Thank you for sharing this with the public.
